Dear Parents,

To expose our students to the world -one community in the borderless world and to keep pace with the global scenario in education, our school is constantly upgrading the learning process and updating the international practices in education. So, we have embarked upon the ISA Journey.

The ISA is the British Council's principal accreditation scheme and has been running successfully in U.K for over ten years. The aim of ISA is to encourage and support the students to develop an international ethos and a collaborative curriculum- based work with a number of partner schools i.e involvement of the wider community, fostering an international dimensions in the curriculum is at the heart of the british council's work with school, so that the young people can gain the cultural understanding and international skills. They need to live and work as global citizen. In this world of globalization, international skill is very important. So, everything the school is doing is a vital preparation for life in a global society and work in a global economy.

Our international activities will make the children more aware of community and global issues. We will continue to expand and develop our international work which is now embedded in the culture of the school.

**Project:** Kingdom of Speechless(endangered animals of India and Afghanistan)

**Aim:** Aim of the project is to create awareness among students about different endangered animals of India and Afghanistan.

**Learning Outcomes: At the end of the activity the students will be able to:**
