### “TALENT WINS GAMES BUT TEAM WORK AND INTELLIGENCE WINS CHAMPIONSHIP”

*The enhancement of physical and mental development of children is certainly the most important contribution of sports for children. Sport have an educational impact. Changes can be seen in motor skills development and performance and educational potential. This shows the positive relationship between being involved in physical activities and psychosocial development. Sport and physical education is fundamental to the early development of children and youth and the skills learned during play, physical education and sport contribute to the holistic development of kids . Through participation in sport and physical education, kids learn about the importance of key values such as: honesty, teamwork, fair play, respect for themselves and others, and adherence to rules. It also provides a forum for kids to learn how to deal with competition and how to cope with both winning and losing. These learning aspects highlight the impact of physical education and sport on a child's social and moral development in addition to physical skills and abilities. Keeping the all round development of kids in mind Nursery Department has organised “sports day “on \_\_\_\_\_ where they will enjoy different sports activities .*
