Dated: 13-08-2018

Dear Parents,

The main aim of education is the 'holistic' development of the children. This objective of all round growth can be achieved only if the children are given plenty of exposure to areas like sports and games. As educators, it is our duty to locate that latent capacity of the student and provide it with congenial atmosphere and abundance of opportunities. Every single child has the potential to excel in one field or the other. Excellence in form of sport or physical activity instills confidence in children. Imparting proper training helps them to participate in various national and international tournaments with utmost gusto and competitiveness. It is with these ideas that Arvind Gupta DAV Centenary Public School has decided to run specialized Sports Academy after school hours. Proper coaching with complete technical knowledge of the game is provided to the students by expert coaches.
